Firmware Update: Xtreamer Prodigy / Sidewinder3 4.2.7 . The latest firmware of the Xtreamer Prodigy is version 4.2, released on July 27th of 2013. It comes with a pretty big update of the firmware, that is required for it to work properly with the latest version of the Xtreamer Addon. As an update of 4.1 the new firmware is based on the one of the JX-Z78-R66 (SD4100-F), and has enhanced the firmware to work with the used firmware version. Since the firmware 4.2 is based on the firmware 4.1, and since firmware 4.1 can run on firmware 4.0 and higher versions, we can assume that firmware 4.2 is compatible with firmware 4.0 and higher. The firmware 4.2 comes with many improvements, some that allows us to use the speakers with the Xtreamer add-on, others that improves the image quality. User level: All user levels are present, including those that work with the Xtreamer original Firmware. When using with the Addon firmware it will work at level f in the chart above. The user level limits its functions to: TV-Firmware 1.09.11 - firmware compatability chart 2012-11-17. Section 2: Launch / Addon Firmware Issue: Xtreamer Prodigy Firmware Version 4.2 is not compatible with firmware versions older than 4.0. Due to extensive code tweaks, it has been deemed that Xtreamer Prodigy Firmware Version 4.2 is not compatible with firmware versions older than 4.0. Use of firmware versions prior to 4.0
